

2006/2007 College Admissions Testing Information

Most four-year colleges in the United States require either the SAT Reasoning or the ACT for admission purposes. These tests, along with your grades, essay, resume, and extra-curricular activities are used to determine your eligibility and suitability to a particular college. The recommended time to take these tests is May or June of your junior year; however, fall test results are usually accepted. It is recommended that you take both the SAT Reasoning and ACT, for most colleges will consider your highest score from either one.

SDSU will **NOT** accept scores after November of your senior year.

The University of California (U.C.) and many private colleges also require the SAT Subject Tests for admission. These are subject specific tests, each lasting approximately one hour in length. The UC's require you to take two SAT Subject Tests in two different areas. Both tests can be taken at one session, but not on the same day as the SAT Reasoning. It is recommended that students take the tests upon completion of the corresponding course. For example, a 10th grader enrolled in biology should take the biology subject exam at the end of their sophomore year.

Bonita Vista High does not administer the tests, nor do we accept registration forms for them. You may pick up the registration packets for SAT/ACT in the Counseling Center, but YOU mail them to the testing companies with the appropriate fees. You may also register on-line or by telephone; see your counselor for details.
